### COURSE DESCRIPTION

This online continuing education course teaches essential knowledge about the role of the telehealth nurse presenter. The course includes information about current telemedicine and telehealth practice as well as future directions. Key information about telehealth equipment, preparing and conducting a telehealth visit, and continuity of care following a telehealth visit are addressed.

### TARGET AUDIENCE

Registered nurses interested in effectively providing care via telehealth.

### COURSE OBJECTIVES

- Describe the benefits of telemedicine and telehealth to obtain specialty consultations.
- Explain the role of the telehealth nurse presenter in preparing, conducting, and providing follow up care for telehealth visits.
- Demonstrate knowledge for safe use of telehealth equipment.
- Relate health policy, quality improvement, and ethical and legal principles to telehealth nursing practice.

*This course is co-presented by the University of Minnesota School of Nursing and the Great Plains Telehealth Resource and Assistance Center (TRAC).*
